Filter Silencers

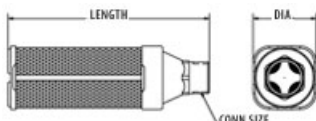

Single Chamber-Male 1/8" - 2"

Single Chamber-Female 1/8" - 2"

Multi-Chamber-Male 3" - 6"

Special Applications

Filters out dirt particles as small as 5 micron

- Highly efficient filter - and effective muffler - performs equally well at high and low velocities
- Features easy-to-service design and durable construction for long life
- Designed for heavy-duty applications and sized for high flow rates and continuous operation
- Ideal for compressor intakes, pumps, reservoir vents and gear-housing breathers
- Replacement filter elements available
- Recommended for pressures up to 125 psi (8.6 Bar)
