RFID Guard Locking Switch Stainless Steel Type: KLT-SS-RFID

FEATURES:

CONTACTS:

KLT-SS-RFID (incorporating RFID coding)

4NC Safety Contacts

1NO Auxiliary PNP Signal (Guard Open) 1NO Auxiliary PNP Signal (Guard Locked)

LED1 RED Solenoid Power On LED2 GREEN Switch Locked LED2 YELLOW Diagnostic Fault

FUNCTIONAL SPECIFICATIONS:

Positive Break Contacts to EN60947-5-1 High Functional Safety to ISO13849-1 Mirror Polished (Ra10) Stainless Steel 316 Will fit on 73mm fixing centres Connects to most Safety Relays to give up to PLe Cat.4 M23 Quick Connector version available for ease of installation 1 manual override points LED diagnostics for Solenoid, Lock and faults

ACTUATOR

For all IDEM switches the normally closed (NC) circuits are closed when the guard is closed actuator inserted.

Solenoid Locking Door Interlock Safety Switch with Integral Unique RFID Coding featuring Guard Holding up to 3000N (300Kg) (F1Max)

IDEM's KLT-SS-RFID Series Guard Locking switches are tongue type safety interlock switches incorporating traditional mechanical anti-tamper tongue technology (featuring IDEM's patented cam system) but also incorporating uniquely coded RFID non contact coded sensor technology in one device.

They interlock and hold closed guard doors to protect operators from moving or hazardous machinery. They are suited to where a high anti-tamper technology is required to prevent accidental or deliberate attempts to by-pass the interlock.

Both technologies must be satisfied to enable the machine to be started.

They have a mirror polished Stainless Steel 316 body design and have been developed with a maximum holding force of 3000N to keep medium to large guard doors closed until hazards have been removed.

IP69K enclosure protection is maintained by a double seal lid gasket design and metal fixings.

They have a low profile and fixing holes are on an industry standard 73mm centre to enable easy retrofitting to new or existing guards (or where extra anti-tamper is required).

Type: KLT-SS-RFID Mechanical and RFID Coding

Standards: ISO14119 EN60947-5-1 EN60204-1 ISO13849-1 EN62061 UL508

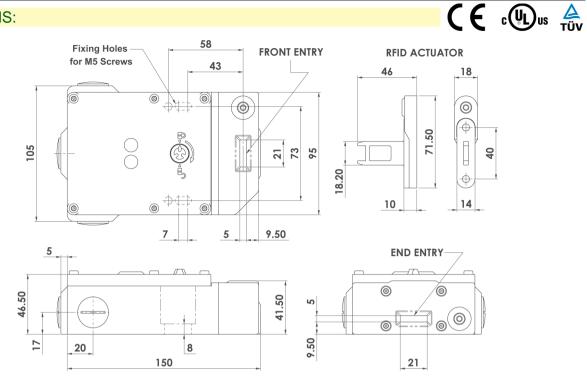

Safety Classification and Reliability Data: Mechanical Reliability B10d 2.5 x 10⁶ operations at 100mA load EN62061 Safety Data – Annual Usage KLT-SS-RFID Supply/Solenoid Voltage Solenoid Wattage Thermal Current (Ith) Rated Insulation/Withstand Voltages Travel for Positive Opening Maximum Approach/Withdrawal Speed Holding Force Body Material Enclosure Protection IP69K Operating Temperature -25C +40C Vibration
